Valencia 20th September 2015

On Wednesday 16th September we had a meeting with members of the European Medical Agency to tell them about our experiences of the HPV vaccine and also to get more details about the process of evaluation is on process which will end on 31st May 2016. At that meeting we emphasized the severity of illnesses being experienced and also the wide range of symptoms.

By Monday 21st September (this Monday) – we must submit as many cases as possible from Europe.

If you have had an adverse reaction and you are a European member, fill in this form as soon as possible, so that we send it to The EMA. Your information must be concise; you can send your information to this e-mail asociacion.aavp@gmail.com

Once you have sent your information to us, we will remove the names and personal information as this will make it easier to pass on the information to the PRAC members.

We enclose the table where you can add your personal details.
Thanks for your cooperation.
